Subject: Approval of Updates to the Notice of Intention, Geneva Rock Products LLC, Sage Canyon Mine, M/049/0071, and Utah County, Utah

Dear Mr. Sumsion:

The Division of Oil, Gas and Mining approves the changes to the Sage Canyon Notice of Intention to Commence Large Mining Operations (Notice) received November 17, 2015. Enclosed is a copy stamped approved for your copy of the Notice. Please be advised that the Division verified with Lehi City that Geneva Rock was in fact granted a variance to the mass grading plan for Traverse Mountain to allow for the 57 percent (1.7H:1V) slopes at reclamation. Under rule 647-4-111.7, the highwall may be no steeper than 1H:1V at reclamation, so the slope variance approved by Lehi City meets the Division's requirements. A copy of the Lehi City approval is attached to this letter. The Division now considers the requirements of its October 14, 2015, directive to have been met.

Please contact April Abate at 801-538-5214, or me at 801-538-5261 if you have questions or concerns regarding this letter. Thank you for your help in completing this very important regulatory requirement.

Sincerely,

Paul B. Baker
Minerals Program Manager
